WeberAct Client Paperwork Kit

Nov 10, 2026 · @Ved

How to use this kit

These 24 documents take a client from the first call to a signed project, a delivered result and a renewal. They use the same terms as the Terms & Conditions on weberact.co: payments of 50%, 30% and 20%, invoices due in 7 days, 30 days of free fixes, 15 days' notice on monthly services, and Indian law.

client lifecycle · 5 stages, 24 documents

Each arrow is the client action that starts the next stage. The coloured loop is how a kept client becomes the next project, under the same agreement.

Fill these in once, before the first client

- [ ] Registered business name, address, PAN and GSTIN (if registered): they go on the agreement, the invoices and the website footer
- [ ] Bank details for INR and international (SWIFT) payments
- [ ] The city whose courts handle disputes (the website shows [City, State])
- [ ] Business email and WhatsApp number (the website still shows [EMAIL] and [WHATSAPP NUMBER])
- [ ] A lawyer reviews documents 3, 4, 6 and 17 before the first signature
- [ ] A chartered accountant confirms GST registration, the SAC code and a Letter of Undertaking for export invoices

Text in [square brackets] is a placeholder. Fill it, or delete it, before a document leaves WeberAct.

When each document goes out

#	Document	Send it	Who signs
1	Discovery call guide and intake questionnaire	On the first call	Nobody (internal)
2	Proposal	Within [2] working days of the call	Client accepts
3	Mutual NDA	Only if the client asks before sharing details	Both
4	Client services agreement	Once per client, with the first project	Both
5	Statement of work	Once per project	Both
6	Data processing addendum	When the work touches the client's customer or lead data	Both
7	Invoice and payment schedule	On signing, at approval, before handover	Nobody
8	Welcome letter	The day the first payment arrives	Nobody
9	Onboarding checklist and access request	With the welcome letter	Client completes it
10	Kickoff agenda and project brief	At the kickoff call	Client approves the brief

#	Document	Send it	Who signs
11	Project plan and milestone tracker	At kickoff, updated every week	Nobody
12	Weekly status update	Every [Friday]	Nobody
13	Change request form	Whenever a request is outside the scope	Both
14	Milestone approval form	At each milestone	Client
15	Pre-launch quality checklist	Before launch	Nobody (internal)
16	Handover pack and completion certificate	At handover, after the final payment	Client signs the certificate
17	Monthly care plan agreement	Offered at handover	Both
18	Monthly results report	First working week of each month	Nobody
19	Quarterly review agenda	Every 3 months	Nobody
20	Client feedback survey	2 weeks after launch, then every 6 months	Client answers
21	Testimonial and case study permission	After a good result or a high survey score	Client
22	Referral request and thank-you	After a signed testimonial or a good review	Nobody
23	Renewal and next-phase proposal	30 days before a plan renews, or after a review	Client accepts
24	Offboarding checklist	When a client leaves	Both confirm

Stage 1: Win the client

1. Discovery call guide and intake questionnaire

Use this on the free 30-minute consultation. By the end you know the one result the client needs, the budget, the launch date and who decides, which is everything a fixed-fee proposal needs.

Before the call

- [ ] Read the enquiry in the dashboard: services, budget and timing they picked
- [ ] Look at their website on a phone, their Google Business Profile and their LinkedIn page
- [ ] Note 3 competitors that show up for their main product in Google
- [ ] Run their home page through PageSpeed Insights and note the mobile score
- [ ] Prepare 2 questions specific to their business

Call agenda (30 minutes)

Minutes	Topic	What you leave with
0 to 3	Introductions	Who is on the call and who signs
3 to 12	Their business and buyers	What they sell, to whom, in which countries
12 to 20	The problem and the one result	What must change, and the number that shows it
20 to 25	Budget, timing, tools	A range, a launch date, the tools already in place
25 to 30	Next step	The date the proposal arrives and who receives it

Intake questionnaire

Fill this in during the call, or send it beforehand to a client who prefers writing.

Question	Answer
Registered business name and website	
What you sell: your top 3 products or services	
Who buys: industry, job title, country	
Average order or contract value	
How enquiries arrive today (form, email, WhatsApp, phone, trade shows)	
Enquiries per month today, and how many become customers	

Question	Answer
The one result this work must deliver, as a number	
How you measure that number today	
The date it is needed by, and why that date	
Budget range and currency (INR or USD)	
Who approves the spend	
Tools in place: hosting, domain, CRM, email, analytics, automation	
Brand guidelines, languages, legal or industry rules to follow	
Other agencies you are speaking to	

Write a proposal only when

- [ ] One measurable result is agreed
- [ ] The budget fits the scope, or a smaller first phase fits the budget
- [ ] The person who signs is named and will receive the proposal
- [ ] The launch date is realistic for the scope
- [ ] No red flags: no demand for guaranteed rankings, fake reviews or work without a written scope

2. Proposal

The proposal states one result, a fixed scope, a fixed fee and a launch date, and stays valid for 30 days. Keep it to 2 or 3 pages; the agreement (document 4) carries the legal terms.

Cover message

> Hi [first name], thank you for the call on [day]. Attached is our proposal for [project]. It covers the result we agreed, [the result in a few words], with a fixed fee and a launch date of [date]. It is valid until [date]. Happy to walk you through it on a 15-minute call. [Your name], WeberAct

The proposal

Proposal for [client business name]

Prepared by [your name], WeberAct · [date] · Valid until [date + 30 days] · Reference [WA-P-2026-001]

1. The result we will deliver

[One sentence with a number and how it is measured. Example form: "More qualified enquiries from buyers in [country], counted in your CRM each month."]

2. What we heard

- [Their situation today, in their words]
- [What it costs them]
- [What they have tried before]

3. What is included

Deliverable	Detail
[Deliverable 1]	[Pages, workflows, keywords or accounts covered]
[Deliverable 2]	[Detail]
Feedback rounds	[2] rounds on design and copy
Launch support	Launch on the agreed date, analytics and Search Console checked
Training	[1] recorded session on running it yourself
Free fixes	30 days after delivery

4. Not included

- Third-party costs: domain, hosting, software subscriptions, ad spend (paid by you or billed at cost)
- Photography, video and translation, unless listed above
- Work beyond the deliverables above, quoted separately before we start it

5. Timeline

Milestone	Date
Kickoff	[date]
Design and copy approval	[date]
Build approval	[date]
Launch	[date]

The dates assume content, access and feedback arrive on time (document 9).

6. Investment

Option	What it covers	Fee	Launch
A: [name]	[Core scope]	[₹ / $ amount]	[date]
B: [name]	[Core scope plus extras]	[₹ / $ amount]	[date]
Monthly care plan (optional)	[What it covers]	[amount] per month	From launch

Payment: 50% on signing, 30% on design and development approval, 20% before final handover. Indian clients are billed in INR plus GST where it applies; international clients in USD.

7. What we need from you

- One person who gives feedback and approves
- Content and access within [5] working days of kickoff
- Feedback within [2] working days of each review

8. How we work

- Fixed scope, fixed fee and launch date, in writing
- A review every week on real content, so nothing surprises you at launch
- You own everything we build once it is paid in full
- No promises of rankings, traffic or leads: search engines decide those, and we report what actually happens

9. To accept

Reply "accepted" by email or WhatsApp, or sign below. We then send the agreement, the statement of work and the first invoice, and start within [3] working days of payment.

Option chosen	
Name and title	
Signature	
Date	

3. Mutual non-disclosure agreement

Send this only when a client asks for an NDA before sharing details; otherwise the confidentiality clause in the agreement (document 4) covers both sides. Have a lawyer review it before first use.

Mutual Non-Disclosure Agreement

This agreement is made on [date] between [WeberAct legal name], [registered address] ("WeberAct"), and [client legal name], [address] ("the Client"). Each is a "party".

1. Purpose. The parties will share information to discuss [a website, SEO, automation or lead generation project] ("the Purpose").

2. Confidential information means any business, technical, financial, customer or personal information one party shares with the other, in any form, that is marked confidential or that a reasonable person would treat as confidential.

3. Exclusions. It does not include information that:

1. is or becomes public without a breach of this agreement;
2. the receiving party already knew lawfully before receiving it;
3. the receiving party develops independently, without using it;
4. the receiving party lawfully receives from a third party who may share it.

4. Obligations. The receiving party will:

1. use the information only for the Purpose;
2. protect it with at least the care it uses for its own confidential information, and never less than reasonable care;
3. share it only with its staff and contractors who need it for the Purpose and are bound by similar confidentiality duties.

5. Required disclosure. If a law, court or regulator requires disclosure, the receiving party may disclose only what is required, and will tell the other party first where the law allows.

6. Return or deletion. On written request, the receiving party will return or delete the information, except copies kept in routine backups or required by law, which stay confidential.

7. Duration. This agreement lasts [2] years from the date above. The duty of confidentiality lasts [3] years after the last disclosure, and for as long as the law protects trade secrets and personal data.

8. No other rights. Sharing information gives no licence or ownership, and neither party must go ahead with any project.

9. Remedies. A breach may cause harm that money cannot fully repair, so the affected party may seek an injunction as well as other remedies.

10. Law and courts. Indian law governs this agreement. The courts of [City, State] decide disputes.

Stage 2: Sign and get paid

4. Client services agreement

Sign this once per client; each project then gets its own statement of work (document 5). It turns the website's Terms & Conditions into a signed contract, with the same numbers. A lawyer should review it before the first signature.

Client Services Agreement

Made on [date] between [WeberAct legal name], [registered address], PAN [PAN], GSTIN [GSTIN] ("WeberAct"), and [client legal name], [address], [GSTIN or company number] ("the Client").

1. How this agreement works. This agreement sets the general terms. Each project is described in a statement of work ("SOW") signed by both parties. If an SOW differs from this agreement, the SOW wins for that project.

2. Services. WeberAct provides website design and development, web systems, business automation, search engine optimisation and B2B lead generation, as each SOW describes.

3. Scope and changes. WeberAct does only the work in the SOW. A request outside it is handled with a change request (document 13): WeberAct states the effect on fee and dates, and the work starts after the Client approves in writing. Email or WhatsApp counts as writing.

4. Fees and payment.

1. Unless the SOW says otherwise, projects are billed 50% on signing, 30% on design and development approval, and 20% before final handover.
2. Monthly services are billed in advance each month.
3. Indian clients pay in INR plus GST where it applies. International clients pay in USD. Each party pays its own bank charges.
4. Invoices are due within [7] days. WeberAct may pause work on an overdue account after giving written notice, and dates move by the length of the pause.
5. Third-party costs (domains, hosting, software, ad spend) are paid by the Client directly or billed at cost, as the SOW states.

5. Client responsibilities. The Client will:

1. name one person who gives feedback and approvals;
2. provide content, access and feedback by the dates in the SOW; delays on the Client's side move the timeline;
3. make sure content, images and data it provides are its own to use and lawful;
4. use the automations and outreach in line with platform rules (including WhatsApp Business) and anti-spam and data-protection laws.

6. Approvals. At each milestone the Client approves or lists the changes needed within [5] working days, using the milestone approval form (document 14). The SOW includes [2] rounds of feedback per milestone; more rounds are a change request.

7. Ownership. Once the project is paid in full, the Client owns the deliverables made for it, including code, designs, copy, workflows and documentation. Accounts are set up in the Client's name. WeberAct keeps its general know-how and pre-existing tools and code, and grants the Client a permanent licence to use any of them included in the deliverables. Third-party and open-source components stay under their own licences.

8. Portfolio. WeberAct may name the Client as a client unless the Client says no in writing. Quotes, logos, results and case studies are published only with the Client's written permission (document 21).

9. Confidentiality. Each party keeps the other's business information, customer data and login details confidential and uses them only for the work. This lasts [3] years after the agreement ends, and for as long as the law protects trade secrets and personal data.

10. Personal data. When WeberAct handles personal data for the Client, the data processing addendum (document 6) applies.

11. Results. Search engines, AI assistants and the people contacted decide rankings, answers and replies. WeberAct does not guarantee rankings, traffic, leads or revenue, and will not use tactics that break search-engine guidelines. Estimates are illustrations, not promises.

12. Third-party services. The work may rely on third-party services such as Google, WhatsApp, hosting, CRMs and automation platforms. WeberAct is not responsible for their outages, price changes or policy changes, and will help the Client adapt where it reasonably can.

13. Warranty. For [30] days after delivery, WeberAct fixes defects in the work it built at no cost. This does not cover changes made by others, third-party failures or new requests.

14. Liability. To the extent the law allows, each party's total liability for any claim about a project is limited to the fees paid for that project in the [12] months before the claim. Neither party is liable for indirect losses such as lost profits or lost data. This limit does not apply to fraud, a breach of confidentiality, or the Client's duty to pay.

15. Ending the agreement.

1. There is no lock-in. Either party may end monthly services with [15] days' written notice.
2. Either party may end a fixed project if the other seriously breaches this agreement and does not fix it within [15] days of written notice.
3. On ending, the Client pays for the work completed up to the end date, and WeberAct hands over all accounts, files and documentation that belong to the Client (document 24).

16. Events outside control. Neither party is liable for delay caused by events outside its reasonable control, such as natural disasters, wide outages or government action. Dates move by the length of the event.

17. Working relationship. WeberAct is an independent business. It may use subcontractors and remains responsible for their work.

18. Notices. Notices go by email to the addresses below and count as received the next working day.

19. Law and disputes. Indian law governs this agreement. The parties first try to settle a dispute in good faith for 30 days. If that fails, the courts of [City, State] decide it.

20. Whole agreement. This agreement, its SOWs and its addenda are the whole agreement. Changes must be in writing and accepted by both parties. Electronic and scanned signatures are valid.

	WeberAct	Client
Name		
Title		
Email for notices		
Signature		
Date		

5. Statement of work

One SOW per project, signed under the agreement (document 4). Copy the accepted proposal into it, then add the acceptance tests: they decide when a milestone is done, so write them so either side can check them.

Template

Field	Entry
SOW number	[WA-SOW-2026-001]
Under agreement dated	[date]
Client contact (approvals)	[name, email, WhatsApp]
WeberAct contact	[name, email, WhatsApp]
Start date	[date, or 3 working days after the first payment]
Launch date	[date]
Fee	[₹ / $ amount], [plus GST where it applies]
Payment	50% on signing, 30% on design and development approval, 20% before final handover
Third-party costs	[list, and who pays]

The result. [The one result from the proposal, with the number and how it is measured.]

Deliverables. [Copied from the proposal, using the lists below.]

Not included. [Copied from the proposal.]

Milestones.

Milestone	Date	Acceptance test	Invoice
Kickoff	[date]	Brief approved (document 10)	50% on signing
Design and development approval	[date]	[Test]	30%
Final handover	[date]	Pre-launch checklist passed (document 15)	20% before handover

Assumptions. Content and access within [5] working days of kickoff; feedback within [2] working days; [2] feedback rounds per milestone; one approver.

Deliverables by service

Website development

- Sitemap of [number] pages and the wireframes for them
- Copy for [number] pages, written from the brief and approved by the client
- Design for desktop and mobile, [2] rounds of feedback
- Build with an editing panel, so the client changes text and images without code
- Enquiry forms sent to [email, WhatsApp or CRM], with spam protection
- Speed: pages pass Core Web Vitals in PageSpeed Insights (largest contentful paint 2.5 s or less, interaction to next paint 200 ms or less, cumulative layout shift 0.1 or less)
- Accessibility checks against WCAG 2.2 level AA
- Search set-up: titles, descriptions, sitemap, structured data, redirects from old addresses
- Google Analytics 4 and Search Console connected
- Acceptance test: the pre-launch checklist (document 15) passes on the live address

Technical SEO

- Audit of crawling, indexing, speed, structured data and site structure, as a written report with priorities
- Fixes for the [number] issues agreed from the audit
- Search Console and analytics set up and checked
- Monthly report (document 18) and [number] hours of work each month

- Acceptance test: the agreed fixes are live and confirmed in Search Console. Rankings are not an acceptance test.

AI business automation

- Map of the current process and the automated one, approved before building
- [Number] workflows in [n8n, Zapier or Make], each with its trigger, steps and result written down
- Error alerts to [email or WhatsApp] when a workflow fails
- A plain guide to each workflow and a recorded walkthrough
- Acceptance test: each workflow runs from start to finish on [10] real or test records without manual help

B2B lead generation

- Ideal customer profile: industries, company size, job titles, countries
- A target list of [number] companies from sources the client approves
- Outreach messages and follow-ups, approved by the client before any is sent
- Sending from the client's domain or a dedicated one, with a working opt-out in every message and the sender's real name and address
- Reply handling against the qualification rules in the brief, and qualified leads passed to [CRM or person]
- A weekly report: messages sent, replies, qualified leads, meetings booked
- Acceptance test: lists and messages approved and sending on schedule. Meetings and replies are reported, not guaranteed.
- Compliance: each country's outreach rules apply, for example CAN-SPAM in the United States, PECR and UK GDPR in the United Kingdom, CASL in Canada and the Spam Act in Australia. Check the rules for each target country with a lawyer before the first send.

6. Data processing addendum

Add this to the agreement whenever WeberAct handles the client's personal data: enquiry forms, CRM records, automation runs or lead lists. The client decides why and how the data is used; WeberAct processes it on the client's instructions. Clients in the UK and EU expect this document. A lawyer should review it and, for UK or EU clients, add the transfer terms in clause 9.

Data Processing Addendum to the Client Services Agreement dated [date] between [WeberAct legal name] ("the Processor") and [client legal name] ("the Controller").

1. Roles. The Controller decides the purposes and means of processing. The Processor processes personal data only to deliver the services. Under India's Digital Personal Data Protection Act, 2023, the Controller is the data fiduciary and the Processor its data processor; under the UK GDPR and the EU GDPR, they are controller and processor.

2. Instructions. The Processor follows the Controller's documented instructions, which are this addendum, the SOW and written requests. It tells the Controller if it believes an instruction breaks the law.

3. Confidentiality. Everyone who handles the data is bound by confidentiality.

4. Security. The Processor keeps the measures in Annex B and does not lower them during the agreement.

5. Sub-processors. The Controller approves the sub-processors in Annex C. The Processor gives [14] days' notice before adding or replacing one, and the Controller may object on reasonable grounds. The Processor stays responsible for its sub-processors.

6. Requests from individuals. The Processor passes on any request to access, correct or delete data and helps the Controller answer it.

7. Breaches. The Processor tells the Controller without undue delay, and within [48] hours of becoming aware of a breach affecting the Controller's data, with what is known and the steps taken.

8. Help with compliance. The Processor gives reasonable help with security, impact assessments and regulators' questions, and provides the information needed to show compliance.

9. Transfers. Data is processed in India and in the countries of the sub-processors in Annex C. For a Controller in the UK or the EU, the parties sign the UK International Data Transfer Addendum or the EU Standard Contractual Clauses where they are required.

10. End of the work. Within [30] days of the end of the services, the Processor returns or deletes the Controller's personal data, as the Controller chooses, and confirms it in writing. Copies the law requires it to keep stay protected.

11. Lead generation. The Controller decides the legal basis for contacting people. The Processor uses only data sources the Controller approves, honours every opt-out at once and keeps a suppression list for the Controller.

Annex A: The processing

Item	Detail
Services	[website forms, CRM, automation, outreach]

Item	Detail
People concerned	[enquirers, customers, prospects at target companies]
Types of data	[name, work email, phone, company, job title, message]
Sensitive data	None, unless listed here: [ ]
How long	For the term of the agreement, then clause 10

Annex B: Security measures

- Two-factor sign-in on every account that holds client data
- Passwords kept in a password manager, never sent by email or chat
- Access only for the people working on the project, removed when they stop
- Data encrypted in transit (HTTPS) and stored with providers that encrypt at rest
- Backups of the systems WeberAct runs, and a tested way to restore them
- Client data kept out of personal devices' local folders and out of code repositories

Annex C: Approved sub-processors

Provider	What it does	Where data is stored
[Hosting, for example Vercel]	Hosts the website	[region]
[Database, for example Supabase]	Stores form submissions	[region]
[Automation platform]	Runs workflows	[region]
[Email provider]	Sends email	[region]
[CRM]	Stores leads	[region]

	Processor	Controller
Name and title		
Signature		
Date		

7. Invoice and payment schedule

Three invoices per project (50%, 30%, 20%) plus one each month for monthly services, each due in [7] days. A chartered accountant should confirm the GST lines and the SAC code before the first invoice.

Payment schedule

Instalment	Sent when	Share	Amount
1	On signing the SOW	50%	[amount]
2	On design and development approval	30%	[amount]
3	Before final handover	20%	[amount]
Monthly plan	In advance, on the [1st] of each month	100%	[amount]

Invoice template

TAX INVOICE (or **INVOICE** if not registered for GST)

From	
[WeberAct legal name]	[registered address]
GSTIN	[GSTIN, if registered]
PAN	[PAN]
Email and phone	[email] · [phone]

Invoice details	
Invoice number	[WA-2026-001], one series, never reused
Invoice date	[date]
Due date	[invoice date + 7 days]
SOW reference	[WA-SOW-2026-001], instalment [1] of [3]
Bill to	[client legal name, address, country]
Client GSTIN	[for Indian business clients]
Place of supply	[client's state, or country for exports]

Description	SAC	Amount
[Website development: instalment 1 of 3, 50% on signing]	[SAC code, confirm with your CA]	[amount]
Subtotal		[amount]
CGST 9% + SGST 9% (client in your state) or IGST 18% (another state)		[amount]
Total		**[amount]**
Total in words		[amount in words]

For clients outside India, billed in USD, add the line your CA confirms for export of services, for example: "Supply meant for export under Letter of Undertaking without payment of integrated tax. LUT ARN [number]."

Payment details

Account name	[WeberAct legal name]
Bank and branch	[bank, branch]
Account number	[number]
IFSC	[IFSC]
SWIFT (international)	[SWIFT]
UPI (India)	[UPI ID]

Reference	Please quote the invoice number

Work may pause on an account overdue after written notice. Third-party costs are billed at cost with the receipt attached.

Reminder messages

- **On the due date:** "Hi [name], a quick reminder that invoice [number] for [amount] is due today. Payment details are on the invoice. Thank you!"
- **7 days overdue:** "Hi [name], invoice [number] is now 7 days overdue. Could you confirm when it will be paid? Happy to resend it if needed."
- **Notice of pause:** "Hi [name], invoice [number] is [14] days overdue. As set out in our agreement, we will pause work on [date] unless it is paid, and the launch date will move by the length of the pause."

Stage 3: Onboard

8. Welcome letter

Send it the day the first payment arrives. It confirms the payment, books the kickoff and explains how you will work together.

> **Subject:** Welcome to WeberAct: kickoff on [date]
>
> Hi [first name],
>
> Thank you. We have received your payment for [project], and the work starts now.
>
> **What happens next**
>
> 1. **Kickoff call:** [day, date, time, timezone], 60 minutes, [video link]. Please bring anyone who will give feedback.
> 2. **Onboarding checklist:** attached. It lists the content and access we need. Please complete it by [date] so we keep the launch date of [date].
> 3. **Weekly update:** every [Friday] you get a short note on what is done, what comes next and anything we need from you.
>
> **How to reach us**
>
> - Quick questions: our WhatsApp group for this project, [number]
> - Approvals and anything formal: email, [email]
> - We reply within one working day.
>
> **One request:** please never send passwords by email or WhatsApp. The checklist shows how to give us access safely.
>
> We are glad to be working with you.
>
> [Your name] WeberAct · [phone] · weberact.co

9. Onboarding checklist and access request

The client completes this within [5] working days of kickoff; the launch date depends on it. Tick only the groups the project needs.

How to give us access safely

Invite [access email] as a user on each tool, with the role shown. Where a tool cannot invite users, share the login through a password manager (for example Bitwarden Send or 1Password), never by email or WhatsApp. You can remove our access at any time, and we remove it ourselves at the end of the project.

Website, domain and hosting

- [ ] Domain registrar (where you bought the domain): account access, or a call with us to change DNS
- [ ] Current hosting or website admin, if a site exists

- [ ] Google Analytics 4: add us as Editor
- [ ] Google Search Console: add us as Full user
- [ ] Google Business Profile: add us as Manager

Brand and content

- [ ] Logo files: SVG or high-resolution PNG
- [ ] Brand colours and fonts, or the brand guide
- [ ] Photos of products, premises and team that you own the rights to
- [ ] Product or service list, catalogue or price list
- [ ] Certificates, memberships and awards you hold, with proof
- [ ] Real client results and quotes you have permission to use (we never invent them)
- [ ] Team names, roles and short bios for the about page
- [ ] Registered business name, address and contact details for the footer and legal pages

Automation and CRM

- [ ] CRM: user access with permission to create fields and workflows
- [ ] Email platform or mailbox used for enquiries
- [ ] WhatsApp Business account details, if it is part of the work
- [ ] Automation platform account in your name ([n8n, Zapier or Make]), or permission for us to create one for you
- [ ] A sample of 10 real enquiries or records, with personal details removed if you prefer, for testing

Lead generation

- [ ] The sending domain, or permission to set up a dedicated one
- [ ] Your list of current customers and open deals, so we never contact them by mistake
- [ ] Companies or countries to exclude
- [ ] The person who takes the calls we book, and their calendar link

People

- [ ] One approver for feedback and sign-off: name, email, WhatsApp
- [ ] Anyone else who should receive the weekly update

10. Kickoff agenda and project brief

The kickoff is a 60-minute call that ends with a one-page brief the client approves in writing. Every later decision is checked against that brief.

Agenda (60 minutes)

Minutes	Topic	Outcome
0 to 5	Introductions and roles	Approver confirmed
5 to 15	The result and how it is measured	The number and its source agreed
15 to 30	Buyers, messages and competitors	What buyers need to read, see and trust
30 to 40	Scope walk-through	Deliverables and exclusions read out together
40 to 50	Plan and dates	Milestones and feedback days in both calendars
50 to 55	Access and content	Gaps in the onboarding checklist, with due dates
55 to 60	Ways of working	Update day, channels, reply times

Project brief

Send it within [1] working day of the call and ask for a written "approved".

Item	Entry
Project and SOW number	
The one result (number, source, date)	
Who the buyers are	
What they need to know to get in touch	
The 3 messages the work must carry	
Proof we may use (real results, certificates, clients, all with permission)	

Item	Entry
Competitors and examples the client likes, and why	
Pages, workflows, keywords or target accounts in scope	
Tone of voice	
Must not do (claims, words, tactics)	
Approver and backup approver	
Milestone dates	
Approved by client (name and date)	

Stage 4: Deliver

11. Project plan and milestone tracker

One row per step, an owner and a date on each, status updated every week before the status update goes out. The rows below fit a website project; swap in the steps from the SOW for other services.

Step	Owner	Due	Status	Note
Kickoff call and brief approved	WeberAct, client	[date]	Not started	
Content and access received	Client	[date]	Not started	
Sitemap and wireframes	WeberAct	[date]	Not started	
Copy draft	WeberAct	[date]	Not started	
Design, feedback round 1	WeberAct, client	[date]	Not started	
Design, feedback round 2	WeberAct, client	[date]	Not started	
Build on the staging link	WeberAct	[date]	Not started	
Forms, automations and integrations	WeberAct	[date]	Not started	

Step	Owner	Due	Status	Note
Design and development approval (30% invoice)	Client	[date]	Not started	
Pre-launch quality checklist	WeberAct	[date]	Not started	
Final invoice paid (20%)	Client	[date]	Not started	
Launch	WeberAct	[date]	Not started	
Handover and training	WeberAct, client	[date]	Not started	
Free-fix period ends (30 days)	WeberAct	[date]	Not started	

When a client-owned step is late, write the new launch date in its note the same day and tell the client in the next update.

12. Weekly status update

Send it every [Friday] by email, with a two-line version in the WhatsApp group. Keep it under 150 words so it gets read.

> **Subject:** [Project] · week [3] of [6] · [On track / At risk / Late]
>
> Hi [first name],
>
> **Status:** [On track] for launch on [date].
>
> **Done this week**
>
> - [Item, with the staging link]
> - [Item]
>
> **Next week**
>
> - [Item]
> - [Item]
>
> **Needed from you**
>
> - [What, by when, and why it matters: "Feedback on the home page by Tuesday keeps the launch on [date]."]
>
> **Risks**
>
> - [Risk and what we are doing about it, or "None this week."]
>
> Have a good weekend, [Your name]

If the status is "At risk" or "Late", call the client before sending it. Bad news should never arrive first in writing.

13. Change request form

No work outside the SOW starts until the client approves its fee and date effect in writing. Reply to a new request within one working day with this form filled in.

Field	Entry
Change request number	[CR-001]
Project and SOW number	
Date requested	
Requested by	
What is asked for	
Why it is needed	

Field	Entry
Is it in the SOW?	No, because [reason]
Work involved	[Tasks and hours]
Fee	[₹ / $ amount], or no charge
Effect on the launch date	[None, or the new date]
Effect on other deliverables	[None, or what moves or drops out]
Invoiced	[With the next instalment, or on approval]
Decision	Approved / Declined / Approved with changes: [details]
Client name, signature or written "approved"	
Date	

Keep a running list of change requests in the project folder. A request that would take under [30 minutes] may be done at no charge, but log it here too, so the client sees what was added.

14. Milestone approval form

The client signs this, or replies "approved", at each milestone. A signed approval closes that feedback round and triggers the next invoice; later changes to approved work go through a change request.

Field	Entry
Project and SOW number	
Milestone	[Design and copy / Development / Launch]
What was reviewed	[Links to the staging site, files or workflow runs]
Acceptance test from the SOW	[Copy the test]
Test result	[Passed, with the evidence]
Feedback round	[1] of [2] included
Decision	Approved / Approved with the small fixes listed below / Not approved: changes listed below

Field	Entry
Fixes or changes, numbered	1. [ ] 2. [ ] 3. [ ]
Invoice triggered	[Instalment 2: 30%] or none
Approved by (name, title)	
Signature or written "approved"	
Date	

Under the agreement (clause 6), the client answers within [5] working days. If no answer arrives, send one reminder, then agree a new date on a call rather than treating silence as approval.

15. Pre-launch quality checklist

Nothing launches until every line that applies is ticked, by someone other than the person who built it where possible. Keep a ticked copy in the project folder as proof of the acceptance test.

Content

- [ ] No [square bracket] placeholders, lorem ipsum or test text anywhere
- [ ] Phone, email, WhatsApp, address and business name correct on every page
- [ ] Every claim, number, certificate and client quote is real and approved by the client
- [ ] Privacy policy and terms filled in and linked from the footer
- [ ] Spelling checked in the client's chosen English (UK or US)

Devices and browsers

- [ ] Checked on a phone, a tablet and a desktop
- [ ] Checked in Chrome, Safari, Firefox and Edge
- [ ] Menus, buttons and links all work; no broken links

Speed

- [ ] PageSpeed Insights mobile: Core Web Vitals pass (LCP 2.5 s or less, INP 200 ms or less, CLS 0.1 or less)
- [ ] Images compressed and sized for the screen

Accessibility

- [ ] Every meaningful image has alt text
- [ ] Text contrast passes WCAG AA
- [ ] The whole site works with a keyboard, with a visible focus
- [ ] Every form field has a label and a clear error message

Search

- [ ] A unique title and description on every page
- [ ] Canonical tags, sitemap.xml and robots.txt correct; no leftover "noindex"
- [ ] Old addresses redirect (301) to the matching new pages
- [ ] Structured data passes Google's Rich Results Test
- [ ] Search Console verified and the sitemap submitted

Forms and automations

- [ ] Each form tested end to end: the message arrives where the client expects it
- [ ] Each automation run on test records from start to finish
- [ ] Failure alerts reach the right person
- [ ] Spam protection on every form

Analytics and consent

- [ ] Google Analytics 4 records visits and the enquiry event
- [ ] The cookie notice appears where it is required, and analytics waits for consent

Security

- [ ] HTTPS on every page, with no mixed-content warnings
- [ ] Two-factor sign-in on the admin, hosting and domain accounts
- [ ] No passwords or secret keys in the code
- [ ] Backups switched on and one restore tested

Launch day

- [ ] Launch at a quiet time, never on a Friday afternoon
- [ ] DNS changed and the SSL certificate live
- [ ] Every form tested again on the live address
- [ ] A way back to the old site ready for 48 hours
- [ ] Client told the site is live, with a short list of what to check

16. Handover pack and completion certificate

After the final payment, the client receives everything they own plus a certificate that closes the project and starts the 30-day free-fix period. Offer the care plan (document 17) in the same meeting.

Handover pack

- [ ] List of every account, with the client as owner: domain, hosting, database, analytics, Search Console, automation platform, CRM, email sending
- [ ] Ownership of each account confirmed as the client's; WeberAct stays a user only if a care plan is signed
- [ ] Any shared passwords moved to the client's password manager and changed
- [ ] Code repository transferred to the client, or a full copy delivered
- [ ] Editing guide: how to change text, images and pages in the admin panel
- [ ] Workflow guide: what each automation does, its trigger and where errors are sent
- [ ] Recorded training session ([45] minutes) and its link
- [ ] Backups: where they are and how to restore one
- [ ] Warranty dates and how to report a defect
- [ ] Final pre-launch checklist, ticked

Completion certificate

Project Completion Certificate

Project: [project name] · SOW [number] · Client: [client legal name]

WeberAct delivered the deliverables in the SOW, and the client accepted them on [date]. The final payment was received on [date].

WeberAct fixes defects in the delivered work at no cost until [date + 30 days]. Report a defect to [email] with a description and a screenshot; we reply within one working day.

Ownership of the deliverables passed to the client on full payment, as set out in clause 7 of the agreement.

	WeberAct	Client
Name and title		
Signature		
Date		

Stage 5: Keep the client

17. Monthly care plan agreement

The care plan keeps WeberAct working for the client after launch. It runs month to month under the agreement (document 4), with no lock-in and 15 days' notice to end. Fill in the plan names, prices and hours before offering it; a lawyer should review it with document 4.

Monthly Care Plan, under the Client Services Agreement dated [date] between [WeberAct legal name] and [client legal name].

1. The plan. The client chooses one plan. It starts on [date].

	[Plan 1 name]	[Plan 2 name]	[Plan 3 name]
Hosting, updates and backups managed	Yes	Yes	Yes
Uptime monitoring and alerts	Yes	Yes	Yes
Security and plugin or library updates	Yes	Yes	Yes
Changes to text, images and pages	[2] hours	[5] hours	[10] hours
Automation monitoring and fixes		Yes	Yes
SEO work each month		[hours]	[hours]
Monthly results report (document 18)	Yes	Yes	Yes
Quarterly review call (document 19)		Yes	Yes
Fee per month	[amount]	[amount]	[amount]

2. Billing. The fee is billed in advance on the [1st] of each month and is due within [7] days. Unused hours [do not carry over / carry over for one month].

3. Response times. WeberAct replies to every message within one working day. If the website or a key automation is down, WeberAct starts work within [4] working hours of being told.

4. Extra work. Work beyond the plan's hours is quoted first and billed at [rate] per hour, or as a change request for larger work.

5. Price changes. WeberAct gives [30] days' written notice of any price change. The client may end the plan before it takes effect.

6. Ending. Either party may end the plan with [15] days' written notice. WeberAct then removes its access and hands over anything new it created (document 24).

7. The rest. Everything else follows the Client Services Agreement.

	WeberAct	Client
Plan chosen		
Name and title		
Signature		
Date		

18. Monthly results report

Send it in the first working week of each month. It opens with the one result from the brief, then the supporting numbers, all taken from the tools named beside them and never estimated.

[Client] · Results for [month year]

The one result: [metric] was [this month] against [last month] and a target of [target]. [One sentence on why it moved.]

Metric	Source	This month	Last month	Change
Enquiries (forms, WhatsApp, calls)	Website database, CRM			
Qualified enquiries	CRM			
Visits from search	Google Analytics 4			
Search clicks and impressions	Search Console			
Core Web Vitals on mobile	PageSpeed Insights			
Automation runs and failures	Automation platform			
Outreach: sent, replies, qualified, meetings	Sending tool, CRM			

Keep only the rows for the services the client buys.

What we did · [3 to 5 bullets of the work done, with links]

What we learned · [1 or 2 findings, for example which page or message brought the qualified enquiries]

Next month · [The 2 or 3 things we will do, and the number each should move]

Needed from you · [Anything the client must provide or decide, with a date]

If a number went down, say so first and say what you will change. Clients stay with agencies that report bad months honestly.

19. Quarterly review agenda

Every 3 months, a 45-minute call with the decision-maker, not only the day-to-day contact. It agrees the next quarter's one result, and it is where renewals and new projects come from.

Prepare

- [ ] The last 3 monthly reports, with the one result charted month by month
- [ ] The 3 changes that moved the number most, and 1 that did not work
- [ ] One proposal for the next quarter, with its fee if it is new work
- [ ] The latest feedback survey answers (document 20)

Agenda (45 minutes)

Minutes	Topic	Outcome
0 to 10	Results against the one result	Both sides agree where things stand
10 to 20	What worked and what did not	Keep, stop, change
20 to 30	The business next quarter: launches, markets, hiring, budget	What the client needs next
30 to 40	Next quarter's one result and plan	A number and a date, agreed
40 to 45	How we work together; anything to improve	One improvement for WeberAct

After the call

- [ ] Send a 5-line summary the same day: results, decisions, next result, next steps, dates

- [ ] Send a renewal or next-phase proposal (document 23) within [3] working days if new work was discussed
- [ ] If the client is pleased with a result, ask for a testimonial (document 21)

20. Client feedback survey

Send it 2 weeks after launch, then every 6 months. Seven questions take about 3 minutes; a Google Form or Tally form works well. Act on every score below 7 within a week.

> Hi [first name], could you spare 3 minutes to tell us how we did on [project]? Your answers go only to the founders and help us improve. [link]

#	Question	Answer type
1	How likely are you to recommend WeberAct to a colleague?	0 to 10
2	Did we deliver the result we agreed?	Yes / Partly / No, with a comment
3	How clear and timely was our communication?	1 to 5
4	What did we do best?	Text
5	What one thing should we do better?	Text
6	What should we help your business with next?	Text
7	May we contact you about a short testimonial?	Yes / No

Question 1 is the standard Net Promoter question: 9 or 10 is a promoter, 7 or 8 is passive, 0 to 6 is a detractor. Ask a promoter who answers "yes" to question 7 for a testimonial (document 21). Call a detractor, without arguing, to learn what went wrong.

21. Testimonial and case study permission

A signed form is the only way a client quote, logo or result reaches weberact.co: the testimonial blocks on the site stay placeholders until one arrives. Publish only words the client wrote or approved, never edit their meaning, and never write one for them.

Asking

> Hi [first name], thank you for your kind words about [project]. Would you be happy for us to share them on our website? I have put what you wrote below, lightly tidied. Please change anything you like, and tick what we may use on the attached form. If you would rather not, that is completely fine.

The form

Testimonial and Case Study Permission

Client: [client legal name] · Project: [project] · Person quoted: [name, title]

The quote, exactly as approved:

> "[Quote]"

WeberAct may use:

- [ ] The quote with my name
- [ ] My job title and company name
- [ ] Our company logo
- [ ] My photo, which I have supplied
- [ ] These results, exactly as written: [results, with dates]
- [ ] Screenshots of the work delivered
- [ ] A case study page, which I will approve before it is published

Where:

- [ ] weberact.co
- [ ] WeberAct's social media profiles
- [ ] Proposals and presentations to prospective clients

Withdrawing permission. I may withdraw this permission at any time by emailing [email]. WeberAct will then remove the material from its website and social profiles within [14] days. Copies already sent to others or printed cannot be recalled.

No payment. I give this permission freely, without payment or a discount in return. (If any reward is given, say so here, because consumer-protection rules in several countries require that it be disclosed next to the testimonial.)

Name and title	

Signature	
Date	

After it is signed

- [ ] File the form in the client folder
- [ ] Add the quote in the admin panel: Website, Home or About, Testimonials, then publish
- [ ] Send the client the link once it is live, with thanks

22. Referral request and thank-you

Ask once, at a high point: a signed testimonial, a strong quarterly review, or a survey score of 9 or 10. Make it easy with a message the client can forward unchanged.

The ask

> Hi [first name], I am really glad [the result] is working for you. We are a small studio and most of our best clients come through people like you. Is there one business you know, perhaps a supplier, a customer or a friend in another industry, that has the same problem you had? If so, I have written a short note below that you can forward as it is. No pressure at all.

The note they forward

> Hi [name], we worked with WeberAct on [project] and [the result, in the client's own words]. They work to a fixed scope, a fixed fee and a launch date in writing. Worth a 30-minute call if [the problem] sounds familiar: [founder name], [email], weberact.co.

When the referral makes contact

> Hi [first name], [name] from [company] got in touch thanks to you. Thank you for thinking of us. I will look after them as well as we looked after you.

If a referral becomes a client

> Hi [first name], [company] has just signed with us. Thank you again. [As a thank-you, we have added [reward] to your account.]

If you offer a reward for referrals, state it in the ask, and make sure the referred business knows about it too.

23. Renewal and next-phase proposal

Send it 30 days before a plan's price or scope changes, or within 3 working days of a quarterly review that found the next result. It is a one-page proposal built on results the client has already seen.

[Client] · Next phase proposal · [date] · Valid until [date + 30 days]

1. Where we are. Since [start date], [the one result] has gone from [starting figure] to [current figure], according to [source]. [One sentence on what did not work and what we changed.]

2. The next result. [The next number to move, by when, and why it matters to the business now.]

3. What we propose

Option	Work	Fee	Start
Continue	[Current plan, unchanged]	[amount] per month	[date]
Grow	[Current plan plus the new work]	[amount]	[date]
New project	[A one-off project, for example a new market's pages or a new automation]	[amount], paid 50/30/20	[date]

4. What changes. [Any change to hours, scope or price, with the date it takes effect. Price changes get 30 days' notice.]

5. To go ahead. Reply with the option you choose. A new project gets its own SOW under the existing agreement; nothing needs re-signing for a plan change.

Propose the next phase only when the numbers support it. If the current work has not delivered its result yet, say so and propose how to fix it before selling more.

24. Offboarding checklist

When a client leaves, a clean exit protects their data, WeberAct's name and the chance they come back or refer others. Finish it within the [15]-day notice period.

Money and paperwork

- [ ] Confirm the end date in writing: notice received [date], last day [date]
- [ ] Send the final invoice for work completed up to the end date
- [ ] Confirm no further invoices will be sent

Hand over

- [ ] Confirm the client owns every account: domain, hosting, database, analytics, Search Console, automation platform, CRM, email sending
- [ ] Transfer the code repository and any files WeberAct created since the last handover
- [ ] Update the editing and workflow guides with any changes since launch
- [ ] Hand over the outreach suppression list, if lead generation was part of the work

Access and data

- [ ] Remove WeberAct users from every client account
- [ ] Ask the client to change any password that was ever shared
- [ ] Return or delete the client's personal data within [30] days, as the data processing addendum says, and confirm it in writing
- [ ] Delete client files from WeberAct's drives, except what the law requires you to keep, such as invoices

Close well

- [ ] Exit call or 3-question email: why they are leaving, what we could have done better, would they consider us again
- [ ] Ask whether WeberAct may keep naming them as a past client; remove any testimonial if they withdraw permission
- [ ] Send a short thank-you: "Thank you for working with us. Everything is in your name, and if you ever need us again, we are a message away."
- [ ] Note the lessons in the client folder for the next project
